# **GENERAL RULES FOR 4-H & FFA ENTRANTS**

**(EXCEPT LIVESTOCK)**

## **EXHIBITOR MUST BE PRESENT FOR CONFERENCE JUDGING, UNLESS "EXCUSED"**

"Learning By Doing" is the basis of 4-H work, and each year thousands of young Missourians between the ages of 8 and 18 do just that. 4-H members make the items displayed in the Missouri State Fair 4-H Building. The Osage County Fair provides a showcase for the skills and knowledge that members have gained through their 4-H experiences. Besides developing practical skills and knowledge, 4-H members are developing "life skills". Under the leadership of adult volunteers, 4-H members learn to make sound decisions, work cooperatively in groups and develop a sense of self-worth and accomplishment. Missouri 4-H also fosters leadership, as older youth share their talents with younger 4-H members. We salute all Missouri 4-H members, volunteers and families, and particularly those whose "learning by doing" experiences are represented at the 2022 Osage County Fair.

### **4-H BUILDING GUIDELINES**

1. Items made by 4-H members should reflect the skills they have learned in their 4-H project, the needs and interests of the 4-H'er, and quality workmanship. Use the 4-H project literature, "Clover", and suggestions listed in this guide for ideas. Any 4-H member of an organized club in a defined delivery mode and who is enrolled in an individual project may exhibit at the state level.
2. 4-H members may display only in projects in which they are enrolled in the current 4-H year. Items must be made in the current year and must be the work of the 4-H member submitting the item.
3. Items are displayed at the risk of the 4-H member. The 4-H staff, Extension Center and Osage County Fair are not responsible for loss or damage to items. Building volunteers do make ongoing efforts to protect all projects while they are physically in the Exhibit Building, including strategies to keep fairgoers from touching items (e.g., chain barriers and "DO NOT TOUCH THE PROJECTS" announcements).
4. A member is limited to three items in each project they are enrolled in.
5. All 4-H Building items must be registered with the **Osage County Fair Registration** program.
6. **STATE FAIR GUIDELINES FOR POSTERS, NOTEBOOKS AND SCRAPBOOKS** - The 4-H member's club and name should be permanently affixed to the following items. These items will be accepted from any project. \*Notebook – Youth should select 1 page that represents their notebook. The page should be in a plastic sleeve to protect it while on display. No exhibits to be displayed in binders, folders, or notebooks will be accepted. \*Posters – no larger than 14" X 22", flat only, 3D items shall not be more than 1/8" above the surface of the poster board.
7. All exhibits should reflect the educational learning gained from project work. This includes notebook pages, file cards, photo displays, posters, or educational displays. Be sure to mark the exhibit tag with Project number and description. Size restrictions may apply. See additional information in Rule #8.
8. **Because of display space, available cases and number of exhibits in certain projects, dimension criteria is specified. Items which do not comply with size or other specifications will not be displayed or receive a ribbon. There should be no posters, or patterns attached to projects. For scrapbooks made in any project, only one page should be submitted. If more than one page is submitted, the exhibit will be disqualified. Educational display - Educational displays should not exceed 12 inches in height, 12 inches in depth, and 12 inches in width.**

Can include three-dimensional items and must be free standing. (Posters with items taped to them do not qualify as educational displays. Science fair display boards are too large.) Working models - These exhibits should show how things actually work (cutaway-sections of motors or other mechanical items) or can be used to help people identify parts, such as those of a motor or engine. Working models should require floor space no larger than 24" x 24". - these are **STATE FAIR GUIDELINES**

9. **9.NOTE: THIS RULE PERTAINS TO ITEMS GOING TO THE STATE FAIR** - Perishable items such as food, vegetables, crops and home-grown items will not be returned after the Fair. Perishable items will be discarded throughout the fair when quality has deteriorated. If a decorated cake is made with fondant and the fondant fails, the cake will be removed from display. If an item is no longer suitable for exhibit, it will be removed and the tag with a card stating its removal will be left in its place.
10. Fire Hazard Prevention: Any exhibits using batteries, such as circuit boards or robots should not connect the wires to the battery; rather the wires should be taped behind the battery. Another option: Do not attach a battery, but indicate "battery goes here".
11. All 4-H Building items must be checked in and out of the 4-H Building by Fair 4-H personnel during established times. (No exceptions will be made.) No early removal or checkout of items is permitted unless prior approval is given by the building superintendents. Items which are not properly checked in or out of the 4-H Building will not be awarded ribbons and/or premiums.
12. All items must have a Fair tag securely fastened in a place visible to fairgoers. Two identification labels should be securely attached, sewn or safety pinned to each item, 1 on the outside/front of the item and a second one behind, underneath or inside (e.g., textile items such as clothing or knitted items). Multiple piece exhibits should be fully labeled and connected (Examples: jacket and skirt; rocket and rocket launcher). Each item in a multi-piece exhibit should be fully labeled and numbered to prevent items from being separated. Example: Each item in a 3 piece exhibit would be labeled with a Fair tag and the notation, 1 of 3, 2 of 3, 3 of 3.

**PROJECT LIST** All exhibits should reflect the educational learning gained from project work. Check specific projects for exhibit guidelines.
