

## 2024 GMRA rules

### STREET STOCK

36" DOT uncut tires max. No body swaps allowed, body must match frame. Must have a FULL factory frame. No engine swaps allowed. Stock wheel base only. Tires must match wheel wells. Engine must be in stock location. No gutting allowed. Must have factory type dash and either bench seat or 2 bucket seats. Fenders may be trimmed for tire clearance. Must have all glass. Removable tops may be removed and tailgates may be removed. Doors may be removed on CJs/wranglers etc. Must have headlights, taillights, wipers, and charging system (do not have to work) Must have some sort of front and rear bumper. Radiator and battery in stock location. No fuel cells allowed. No trans brakes (if vehicle has a trans brake it cannot be used or will be an automatic DQ). Oem type transfer case only. Stock suspension must be present. No 4 link, no coil overs, no sliders or floaters. No traction bars and no ladder bars. Lift kits allowed. 3 leaf spring minimum per corner. Engine must have been available in that vehicle from the factory. Must run stock iron engine blocks and iron heads unless oem aluminum. No dominator carbs. Single 4150 style carb only. No fuel injection unless oem to that vehicle. Pump gas fuel only. No e85, methanol/alcohol or race gas. Must have mufflers and exhaust that exit past t-case. Mufflers must have a 12" body or longer. 2 visible engine mods are allowed.

Mods can be:

- aftermarket carb
- aftermarket throttle body
- aftermarket intake manifold
- aftermarket headers
- aftermarket ignition box (like msd or holley terminator x)
- carb spacer over 1" tall
- throttle body spacer
- aftermarket iron heads.

Cast intakes only (including aluminum). No sheet metal intakes and no tunnel rams. No nitrous, turbo or blowers. Fire wall cannot be cut, dented, or modified in any way. No motor plates allowed. No big blocks in short beds or blazers/broncos etc. Big blocks in long bed trucks only. No v8s in minis or jeeps unless oem for that vehicle. 4 wheel brakes are a must. No pinion brakes. No aftermarket fiberglass/carbon fiber body parts allowed.

### HOT STOCK

36" DOT uncut tires max. No body swaps allowed, body must match frame. Engine swaps are allowed. FULL factory frame. Small blocks are allowed in mini trucks and jeeps. Big blocks are allowed in full size short bed trucks and Broncos/blazers etc. Single 4150 carbs only. No dominators. Cast intakes only (including aluminum). No sheet metal intakes or tunnel rams. Pump gas, race fuel, and e85 is allowed. No alcohol/methanol allowed. Must have mufflers and exhaust that exit past transfer case. Muffler must have 12" body or longer. Stock Iron heads only unless oem aluminum for that engine. No aftermarket blocks. No aluminum blocks unless oem for that engine. No fuel injection allowed unless oem for that engine used Ls, coyote etc). 3 visible engine mods are allowed.

Mods can be:

- aftermarket carb
- aftermarket throttle body
- aftermarket intake manifold
- aftermarket headers
- aftermarket ignition box (like msd or holley terminator X)
- carb spacer over 1" tall

throttle body spacer  
aftermarket iron heads.

No nitrous, turbos, or blowers. Firewall cannot be cut, but can be dented for clearance. Engine in approximate stock location. Tires must match wheel wells for the body and frame used. No gutting allowed besides door panels, carpet etc. Must have headlights, taillights, wipers, and charging system. (do not have to work) Must have all glass. Must have some type of factory dash. Must have bench seat or 2 buckets. Rear seats may be removed. Tailgates May be removed. And bumpers may be removed. Removable tops may be removed. Doors may be removed on CJs/wranglers etc. Stock suspension must be present. 3 leaf spring minimum per corner. No coil overs, sliders, or floaters. No 4 link. Traction bars and ladder bars are allowed. Lift kits allowed. Fuel cells are allowed. Battery may be relocated. No trans brakes (if vehicle has transbrake, it must not be used or automatic DQ). Must run oem type transfer case. Radiator in stock location. No engine plates allowed. 4 wheel brakes only.

No pinion brakes. No aftermarket fiberglass/carbon fiber body parts allowed.

#### YOUTH

Same rules as hotstock. Ages 10-15 years old. Must have an adult passenger with a valid driver's license.

#### HOT STREET

38.5" DOT uncut tires max. No body swaps allowed, Body must match frame. Engine swaps are allowed, but no big blocks in minis or jeeps. Tires must match wheel wells. Engine in stock location. No gutting allowed other than plastic interior pieces, carpet etc. Must have some kind of factory type dash and bench seat or 2 bucket seats. Fenders may be trimmed for tire clearance. Radiator in stock location. May relocate battery, and fuel cells are allowed. Must have all glass (rear window may be replaced with lexan or Plexiglass for roll bar clearance). Must have headlights, taillights, wipers, and charging system (do not have to work). Removable tops may be removed. Tailgates May be removed. Doors may be removed on CJs/wranglers etc. Do not need bumpers. Rear seats may be removed. Oem type transfer case only. Stock suspension must be present. No 4 link, no coil overs, no sliders,floaters or adjustable boomerang shackles allowed(boomerangs will be allowed if non adjustable, welded holes etc) Traction bars allowed and ladder bars allowed. Lift kits allowed. 3 leaf spring minimum per corner. No alcohol/methanol fuel allowed. Pump gas, race fuel, and e85 allowed. Open headers are allowed but must be down swept. No upswept headers. Single 4150 carbs only. No dominators. Cast intakes only (including aluminum). No tunnel rams or sheet metal intakes. No fuel injection allowed unless oem to that engine (like a IS, coyote, etc.) No aftermarket engine blocks. No aluminum blocks unless oem. Conventional heads only, aluminum is allowed. No SR20 etc type heads. No nitrous, turbo or blowers. No engine plates allowed. Trans brake is allowed. Fire wall can't be cut but can be dented for clearance. 4 wheel brakes. No pinion brakes. No all out race bodies allowed.

#### SUPER STOCK

40" uncut DOT tires max. Body swaps allowed and engine swaps allowed. Tires must be roughly centered in wheel wells. Balancer must be centered or in front of the front axle tube. Factory type suspension must be present. Must be full factory frame. Ladder bar and traction bars allowed. Coil overs allowed. Lift kits allowed. No 4 links,sliders, or floaters. 3 leaf spring per corner minimum. Ford style coil spring front suspension allowed. Methanol/alcohol is allowed. Single 4 barrel carb. Dominators allowed. No stretched or split carbs. No fuel injection unless oem for that engine used. Cast intakes only. (including aluminum) No sheet metal intakes or tunnel rams allowed. Open headers allowed, upswept is fine. Conventional heads only on big blocks (including aluminum).No SR20 heads etc. allowed. Any head allowed on

small blocks. Iron blocks only, (including aftermarket) unless oem aluminum block is used. No power adders. Minimal body gutting is allowed. Interior may be gutted. One bucket seat is ok. Do not need bumpers. Can remove doors on cjs wranglers etc. Can remove glass but must have windshield, lexan or Plexiglass is fine. Radiator in stock location. Must run oem type transfer case. Firewall can't be cut but can be dented for clearance. Wheelbase must be within +3" of the body used. 4 wheel brakes only. No pinion brakes. No all-out race bodies. Driver must sit in stock location.

#### MODIFIED

Any tire is allowed up to 40" tall, including tractor tires, paddles, cuts, etc. Body swaps allowed. Engine swaps allowed. Must be full factory frame from front diff to rear diff. Engine balancer must be within 3" of front axle tube. Factory type suspension must be present. 3 and 4 link and sliders/ floaters allowed. Coil overs allowed. 1 leaf spring minimum per corner. Ford style Coil spring front allowed. Bodies may be gutted. But must retain cab with doors or Jeep tub, Front fenders and hood, and Rear bedsides at least 18" long off rear of cab. Doors may be removed on CJs/wranglers etc. No windshield or glass required. Any radiator location. Methanol/alcohol is allowed. Single 4 barrel carb. Dominators allowed. No split or stretched carbs. No fuel injection allowed unless oem for that engine used. Cast intakes only (including aluminum) Tunnel rams are allowed. No sheet metal intakes. Conventional heads on big blocks (including aluminum and including sr20 type etc) Any heads are allowed on small blocks. Iron blocks only (including aftermarket), oem aluminum blocks allowed. No power adders allowed. OEM and aftermarket transfer cases are allowed, no open chain drives. Firewall can't be cut but can be dented for clearance. Wheelbase must be + - 3" of body used. Pinion brakes allowed on front AND rear or 4 wheel brakes. No all out race bodies. Center steer is allowed.

#### DOT 44

Same rules as modified, except DOT uncut tires only. Up to 44" tall max.

#### ALTERED

Same rules as outlaw, except if running a power adder you'll be limited to uncut Dot tires. All motor trucks can run any tire.

#### PRO STOCK

A4" dot tire max but may be cut. No paddle or tractor tires. Full OEM factory frame from front diff to rear diff only. No back half's allowed, no 2x3 frames or round tube frames allowed. Any suspension allowed. Any engine allowed. No turbos or blowers. Nitrous is allowed. Dual carbs and any type of fuel injection is allowed. Engine balancer must be within 10" of the front axle TUBE. Must be a "door slammer" and look like a truck or jeep but can be gutted. Must have a cab with doors or a Jeep tub. Must have some type of front fenders. Hoods not required. Must have rear bedsides at least 18" long off the rear of the cab. Doors may be removed on CJs wranglers etc. Any transfer case allowed and chain drives allowed. Center steer is allowed. Pinion brakes allowed front AND rear or 4 wheel brakes. No windshield or glass required. Full fiberglass/carbon fiber race bodies are allowed, but must look like something that came from the factory.

#### OUTLAW

Must be a "door slammer" and look like a truck or Jeep etc. Must Have a truck cab or Jeep tub, and have rear bedsides at least 18" long from the rear of the cab. Must have some type of front clip or at least a grille. Any tires allowed. Tractor tire industrial tires run last. 135" max wheelbase. 2x3 frames from DIFF to DIFF are allowed and back halves allowed. OEM frames allowed from axle to axle. No round tube frames allowed unless running 2.5 ton axles or larger. Any engine and power adders allowed. Any engine location. Any suspension. Any transfer case or chain drive allowed. Pinion brakes allowed front AND rear or 4 wheel brakes. No windshield

or glass required. Full fiberglass/carbon fiber race bodies are allowed. Must look similar to something that came from the factory.

OPEN

This class is for vehicles capable of "skimming the mud". No tractor tires

or industrial type tires. No DOT uncut tires allowed on rear, front is fine. Vehicle can make 2 passes if paying 2 entry fees. The same man may drive both passes or the same woman may drive both passes, but only the better of the two times will be counted. A man and woman can both run once in this class and both place.

\* In all classes, if theres a man and woman driver, they may run the same truck if both paying an entry fee. That truck may place twice (man once, woman once). The only class a man OR woman can run twice by themselves is open, if paying 2 entry fees but can only place once. Reason for this is rails only have one class to run, and we also have no women's classes
